Applicant : Georg Stegemann  
Appl. No. : 10/036,253  
Filed : October 22, 2001  
Title : Method of Frequency Synchronization in a Wireless Communications  
System and Configuration for Implementing the Method  
Art Unit : 0.2681

LETTER

Hon. Commissioner of Patents and Trademarks,  
Washington, D.C. 20231

RECEIVED  
MAR 13 2002  
Technology Center 2600

Sir:

Undersigned counsel has received the Filing Receipt for the above-identified application.

However, the filing date was listed incorrectly and should be as follows:

**October 22, 2001**

The Atty. Docket. No. was listed incorrectly and should be as follows:

**L&L-10262**

It is respectfully requested that the Patent Office Records be changed and that a new Filing Receipt be issued, so that the printed patent will show the correct filing date and Atty. Docket. No.

Respectfully submitted,

Loren D. Pearson  
LOREN DONALD PEARSON

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

(54) Title: METHOD FOR SYNCHRONISING THE FREQUENCY IN A WIRELESS TELEPHONE SYSTEM, AND DEVICE FOR CARRYING OUT SAID METHOD

(54) Bezeichnung: VERFAHREN ZUM SYNCHRONISIEREN DER FREQUENZ BEIM DRAHTLOSEN FERNSPRECHEN SOWIE ANORDNUNG ZUR DURCHFÜHRUNG DES VERFAHRENS

**(57) Abstract**

The invention relates to a method and a device for synchronising the frequency in a wireless telephone system. Said method and device enable a communication to take place, using the DECT protocol, between a mobile unit and a fixed base station with rapid and frequent changes in frequency, for example, according to the ADCT protocol. In order to achieve this, a cipher (KEY) is derived from the identification code (ID) which is transmitted from the base station. Lists are established which contain random or pseudo-random frequency sequences. One of the lists is selected, based on the transmitted cipher and the corresponding frequencies are used for the frequency change.

### (57) Zusammenfassung

Es wird ein Verfahren und eine Vorrichtung zum Synchronisieren der Frequenz beim drahtlosen Fernsprechen beschrieben, welche es gestatten, unter Anwendung des DECT-Protokolls eine Kommunikation zwischen einer mobilen Einheit und einer ortsfesten Basisstation mit schnellen und häufigen Frequenzwechseln, beispielsweise gemäß ADCT-Protokoll, durchzuführen. Es wird hierzu aus dem von der Basisstation gesendeten Identifikationscode (ID) ein Schlüssel (KEY) abgeleitet. Es werden Listen mit zufälligen oder pseudozufälligen Frequenzfolgen festgelegt und abhängig vom gesendeten Schlüssel wird eine der Listen ausgewählt und die entsprechenden Frequenzen werden für den Frequenzwechsel verwendet.
